## EVENING WORLD BRINGS OUT EAST SIDE GENIUS AND TALENT AND GIVES KIDDES 'A CHANCE'

Comprehensive Plan Devised by Which "the Gifts of the Gods" Will Be Brought to the Surface and Fully Developed by Fostering Care.

Can you dance?

Can you sing?

Have you any other unusual accomplishment which you would like to demonstrate on the public platform?

If boys and girls of the east side, your answer is "Yes," you will be given the chance within the next few months. And not only will The Evening World give you the chance to show what you can do, but if you do well it will bring you to the attention of famous men and women who are skilled in your line of endeavor and will make every effort to give you the education which you are unable to get yourselves. And there will be contests between the boys and girls of the east side, singing contests, speaking contests, for which prizes will be given. Now in your chance—if you are like the girl in the song who "can dance, she can sing, she can do most anything."

For some time The Evening World has conducted a series of Americanization Forums on the east side to teach the foreign-born the true significance of good Americanism. The children have been urged to come and bring their parents with them. At the forums the most prominent men of municipal, State and national public life have been speakers. They have told the great audiences of their own experiences, and by showing that only ambition and hard work are necessary for success in this country have brought about a realization that if this country will give so much it is well worth supporting. And that is the basis of good citizenship.

## BEAUTIFUL HAIR THICK, WAVY, FREE FROM DANDRUFF

Draw a moist cloth through hair and double its beauty at once.

Save your hair! Dandruff disappears and hair stops coming out.

Immediate?—Yes! Certain?—That's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as a young girl's after an application of Danderine. Also try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful. You can surely have pretty, charming, lustrous hair, and lots of it, if you will spend a few cents for a bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.—Advt.

ship—the thought that this country is the best of all.

**EAST SIDE IS CHOCK FULL OF SLBERPING TALENT.**

Harry A. Schlacht, director of The Evening World Americanization Forum, has been in charge of these meetings. Mr. Schlacht, who was the originator of the forum idea, has studied the matter carefully. He has not only had great men at the forums, but local talent as well. He found that there was a remarkable amount of talent among the boys and girls of the east side. It was rough and untrained, that is true. But nevertheless it was there, and only training and development were necessary to bring out geniuses and masters in the arts.

And so the idea of the Children's Talent Department of The Evening World Americanization Forums came into being. The Evening World decided that these boys and girls should have a chance to show what they could do. And it is going even further. It is going to make it possible for them to appear publicly, but also will bring them to the notice of artists who will decide if real talent exists. If it does exist, it will be a small matter to secure proper education in the specialized subjects. Few of these embryo artists would otherwise be able to get that education, because of the high expense of the training. In a word, the plan of The Evening World gives to the children of the east side the greatest opportunity that has ever before been offered to a district. It does not specialize in singers, dancers, musicians, but opens the door to all with talent, each field of endeavor will be equally favored by men and women of repute carefully selected by The Evening World as judges and perhaps sponsors for the youthful claimants for approval and fame.

**THE SUPPOSITITIOUS CASE OF LITTLE IZZY.**

Supposing little Izzy Cohen has a fine voice. Many times he has sung, not only in the schoolroom but before the whole school in the big auditorium. His schoolmates liked his singing; the teachers were pleased. Izzy had a great future ahead of him; there was no doubt of that. Izzy's father, who runs a fruit stand on the corner, was there too, and he was mighty proud of his boy. The applause which he earned. Sure, he will be a big singer some day, of course he will.

But then the father thought of the future. The teachers said that Izzy had a good voice, but it was untrained, and if it were to be great it must be trained. The rent must go to that meant that Izzy must go to a big school, under great men, to make his voice like that of Caruso. Otherwise he would be just an ordinary singer, such as one sees in the movie shows.

There was the difficulty. Izzy's mother and father had to be clothed and the rent must be paid. And although it was a good stand and he sold a lot of merchandise, there would not be enough left to pay for long months in a school, long months of training during which Izzy could not work but must be supported as much as the smallest child of the family. No, it couldn't be done. Even after long hours of thinking, with the mother he saw that it couldn't be done, not even for a few weeks. So Izzy was forced to forget his wonderful voice and look forward to some time in the dim future when he could have an opportunity to show what he could do and get the necessary education.

Hundreds of boys like Izzy have become men without seeing the fulfillment of their hopes. And there are hundreds on the east side to-day who are waiting anxiously for that opportunity to come.

Now Izzy learns that his dream has come true. He gives his name to his teacher and fills out one of The Evening World blanks. This blank comes to the newspaper, bearing the teacher's endorsement that Izzy can really sing, and is not merely trying to "get on the platform." The blank is filed, and soon the boy is notified that he will appear at his own school, before his own friends and their parents, at The Evening World Americanization Forum the following Wednesday.

He selects his best songs and practices them so that there will be no chance of failure. And that Wednesday night Izzy will sing those songs and show what he can do. Before him will be the friendly faces of the district. On the platform will be men who are artists, who can see talent even in the rough. They will give their opinion to The Evening World, and if they agree that Izzy will be a great singer with proper voice culture and education the boy will soon have his chance.

**WHERE THE AMERICANIZATION FORUM COMES IN.**  
Children will appear on the platforms at each Americanization Forum. That will be part of the programme of entertainment. For the children like nothing better than seeing their friends, and the parents, too, are enthusiastic to see their children or those of their neighbors recite, sing or dance in public. And in this way the entire neighborhood will involuntarily become more interested in the doctrines of Americanism expounded at the schools. In this way, too, the plan serves a double purpose.

among the children. After they have been filled out the teachers will collect them, endorse those which are worthy and send them to the Secretary, Children's Talent Department, Americanization Forum, The Evening World. Then it will be only a matter of time before the artists-to-be appear on the platform.

**INVOKING THE AID OF THE SCHOOL PRINCIPALS.**

The letter sent to each Principal on the east side reads as follows: To the Principal, Public School No. —, New York City.

In conjunction with the Americanization Forum system which The Evening World, together with the Board of Education, has instituted on the east side of New York for the purpose of teaching the true principles of Americanism and good citizenship both to children and parents, a plan has been devised whereby The Evening World will give an opportunity to any talented school child of the east side to demonstrate his or her ability on the public platform. The spirit of competition will be aroused and prizes will be given those who lead in each field. The nature of the awards will be announced later.

Those who show marked ability will be brought to the attention of the children, and every effort will be made to enable them to secure the necessary training and education which they would not otherwise enjoy. Such a plan, of course, cannot be successful without the wholehearted co-operation of the teachers of the children, and each Principal and teacher. The eligibility of applicants for public performance will be left to the teachers of the children, and their endorsement will be adequate to insure every possible aid and encouragement to those recommended.

A number of blanks are inclosed whereby the pupils can be classified and recorded. You are requested to give a number of them to each teacher in your school, with the suggestion that they be filled out and returned as promptly as possible. The teachers may be guided by the marked ability of the pupils as known to them; genius or extraordinary talent is not necessary for qualification.

The forums in your district take place every — at Public School No. —. You will be constantly advised concerning the results obtained in your district, and personal suggestions will be greatly appreciated.

Very truly yours,  
THE SECRETARY,  
Children's Talent Department,  
Americanization Forums,  
The Evening World.

The blank, which can shortly be obtained at every school and settlement house on the east side, is as follows:

**THE EVENING WORLD AMERICANIZATION FORUMS, CHILDREN'S TALENT DEPARTMENT.**

Can you dance? Can you sing? Can you recite? Can you dramatize? Can you play an instrument? Which one? —

Have you any other talent, such as drawing, composition, not mentioned above? —

If you have ability in any of the subjects mentioned, mark a cross in the space provided. Then either give it to your teacher or send it direct, with her endorsement, to THE SECRETARY.

Children's Talent Department, Americanization Forums, The Evening World, New York.

Name .....  
Address .....  
School .....  
Age .....

The results of this campaign will be published daily in The Evening World, also any information or instructions which may be necessary from time to time.

To-night a dinner of approval will be given The Evening World in recognition of the great work which is being done on the east side through the Americanization Forums by the Samuel Brenner Association, an organization of east side merchants.

Dr. M. J. Katz, Chairman of District No. 4, Evening World Americanization Forums, will preside. Dr. Katz will point out the results already obtained by the forums, with special mention of the campaign conducted by The Evening World which resulted in the opening of public schools for such meetings.

Among the speakers will be Peter A. Hendrick, Justice of the Supreme Court; Judge Aaron J. Levy, Judge Jacob Strahl, Dr. Samuel Bucher, Deputy Commissioner of Charities; Abe Goodman, Chairman of an Evening World Forum, and Harry H. Schlacht, Chairman of The World Americanization Forums, representing The Evening World.

**Lift Out Your Corns**  
**ICE-MINT**  
THE NEW DISCOVERY ENDS All Foot Troubles

This new discovery, made from a Japanese product, is certainly a wonder the way it draws out inflammation from a pair of swollen, burning, aching feet. It takes the corns right out, then the corn or callous shrivels and lifts off. Hard corns, soft corns or corns between the toes, just shrivel up and lift off so easy. It is wonderful. Just think! Not one bit of pain while applying Ice-Mint or afterward. It doesn't even irritate the surrounding skin.

You will never have to cut a corn again and run the risk of blood poison. Stay good-bye to your old corns, plantars and blisters, for that matter, for that you are sure to be a "winner" if it ever feels the magic touch of Ice-Mint.

It imparts such a delightful, soothing, cooling feeling to the foot that you will sleep with relief.

Ice-Mint is the real Japanese secret for finding healthy little feet. It prevents foot aches and keeps them sweet and comfortable. It is greatly appreciated by women who wear high-heeled shoes.

Just ask in any drug store for a little Ice-Mint and give your poor, aching, tired, swollen feet the treat of their lives. It costs little and there is nothing better.

**EDUCATION BOARD GIVES MILLIONS TO SCHOOLS**  
Rockefeller Foundation Appropriates \$2,686,480 During Year—Fund \$44,675,273.  
The General Education Board yesterday gave out the following statement:

"The General Education Board, founded by Mr. John D. Rockefeller to promote education in the United States, issues to-day its annual report for the fiscal year 1917-18.

"The report shows that the board's resources now amount to \$44,675,273. Up to June 30, 1918, the board had appropriated \$23,597,188. Of this sum the board appropriated during the past year \$2,686,480.

"Of these appropriations, \$650,000 went to general university endowments, \$1,332,000 to the endowment of medical schools, \$11,855 to schools for negroes, and \$56,000 for educational research and State educational surveys.

**College Cooks**  
Create a New Baked Bean Dish

Culinary experts, college trained, devoted four years to perfecting Van Camp's Pork and Beans. You will find in this dish the finest example of scientific cookery. And this is to urge that you try it.

The beans are grown on rare soils, rich in nitrogen. Each lot is analyzed before we start to cook.

All water used in cooking is freed from minerals. Hard water makes beans tough.

The baking is done by live steam under pressure, without contact with the beans. Thus the beans are baked for hours at high heat without being crisped or broken.
